Introductions

By the principle of knitting, this machine can knit steel wire into mesh scourer. Three steps in one machine (squash, knit and cut-according to scourer's weight), equipped with unlimited transducer to adjust the speed of roller and knit. Also equipped with counted and auto-stop device when yarn breaks, which decreases the defective index and improves the efficiency. The plastic mesh scourer machine is made for plastic scourer

Application: knit mesh scourer

Raw material: 0.09-0.3 mm stainless steel/ galvanized iron /copper plated iron wire etc or plastic yarn.
